

**NSA/CSS EVALUATED PRODUCTS LIST**  
**for**  
**HIGH SECURITY SOLID STATE DESTRUCTION DEVICES**

The Evaluated Products List (EPL) contains a listing of high security destruction devices evaluated by the National Security Agency/Central Security Service (NSA/CSS) that meet the performance requirements of NSA/CSS Specification 13-09 High Security Solid State Destruction Devices. Inclusion of a product in the EPL is not an endorsement by NSA/CSS or the U.S. Government.

The NSA/CSS Storage Device Sanitization Manual 9-12 provides sanitization guidance for all classified storage devices. Approved High Security Solid State Destruction Devices must reduce any solid state storage device to particles measuring four millimeters square or less in area (two millimeter by two millimeter is the most common particle size).

The EPL alphabetically provides the disintegrator device name, model number, and contact data for the distributor and/or sales marketing agent contacts for each destruction device evaluated for sanitization of material at the Top Secret level and below. The EPL also lists the acceptable material and pounds per hour rating for the disintegrator.

This EPL captures all High Security Solid State Destruction Devices evaluated to NSA/CSS 13-09 Specification since April 2012. All approved models that are discontinued and/or no longer manufactured remain on the EPL. Updates to the EPL will be on an as-needed basis. Users are encouraged to contact disintegrator manufacturers and/or distributors for assistance in selecting unit(s) best suited to their requirements. If a user has questions about a specific model not listed on the EPL, they can contact the Center for Storage Device Sanitization Research (CSDSR) at 301-688-1053, send an e-mail to [CSDSR@nsa.gov](mailto:CSDSR@nsa.gov), or contact their respective Client Advocate Service listed below.

The procedures for administration and distribution of the EPL are subject to change without notice. If there is an inquiry, US Government users should contact designated customer support channels through the NSA/CSS Information Assurance Directorate (IAD) Client Advocate Services. For IAD Client Advocate support to Civil and DoD Agencies, please call 1-410-854-4790 and for Military Services, Intelligence, and Combatant Commands please call 1-410-854-4200. If you prefer to send an e-mail, please contact us at [NIASC@nsa.gov](mailto:NIASC@nsa.gov). For all other inquiries, please contact the NSA/CSS Public Affairs Office via phone at 301-688-6524 or send an e-mail to [nsapao@nsa.gov](mailto:nsapao@nsa.gov).

REFERENCE CHART FOR CONVERSION	
0.8 millimeter	= <b>1/32</b> inch (0.7937 inch)
<b>1.0</b> millimeter	= 5/128 inch (0.0390625 inch)
2.0 millimeter	= <b>5/64</b> inch (0.078125 inch)

KNIFEMILL DISINTEGRATOR				
Device Name	Model	Distributor	Acceptable Material	One Hour Durability Test
DSI	SSMD-2mm	Data Security Inc.	Thumb Drives Circuit Boards SSDs Phones Tablets	50 lbs

HAMMERMILL DISINTEGRATOR				
Device Name	Model	Distributor	Acceptable Material	One Hour Durability Test
Gigabiter	GB16 Solid State System	Gigabiter, LLC.	Thumb Drives Circuit Boards SSDs Phones Tablets	600 lbs
